

Australasian Professional Acknowledgement of Continuing Education (APACE) is accepted by CMLS as a continuing professional development recognition program. After completion of an APACE cycle, the awarded certificate is valid for two years.

The program is open to members of AIMS, ASM, ANZSBT, THANZ, FSA, HGQ, HGVT and HTSNSW.

To participate in APACE or for more information, please email programs@aims.org.au.

WHY BECOME CERTIFIED?

- ✓ Participation in CPD activities demonstrates a commitment to ongoing continuing education and professional development
- ✓ CPD is about extending your knowledge and keeping up with, or ahead of, current developments and practices
- ✓ Recognition of participation in activities provides encouragement to maintain, improve and extend knowledge and skills for scientific and professional duties
- ✓ CPD participation ensures a competent workforce and enhanced quality of service for increased confidence of service users
- ✓ APACE provides formal recognition of activities that may have been pursued on a personal basis and provides a record for a professional development portfolio
- ✓ An **APACE Certificate** enhances your professional profile and is an advantage on a resume

APACE participants can lodge their applications and activities by using their online diary via aims.org.au/apace.

GET YOURSELF CERTIFIED!

The **Australian Council for the Certification of the Medical Laboratory Scientific Workforce (CMLS)** is a newly created company established to administer the voluntary certification scheme for clinical scientists, medical scientists and technical officers.

Your status as a certified medical laboratory professional is a public guarantee that you are qualified, competent and continuing your professional development.

WHY BECOME CERTIFIED?

- ✓ Recognition of scientific qualifications
- ✓ Support of industry standards
- ✓ Certification aligned with competency development and assessment processes
- ✓ Demonstrated commitment to a superior professionalism
- ✓ Acknowledgement of participation in continuing educational activities
- ✓ Potential advantage in a recruitment process
- ✓ Increased professional credibility and prestige in the industry
