

- 8:00 am Registration and Tea/Coffee  
9:00 am Welcome: Dominic Pepperell & Joe Rigano (Co-Chairs)

Session 1: Global haemostatic assays / fibrinolytic assays

- 9:10 **Global coagulation assays as predictive markers in thrombotic disease**  
Julie Wang (*Northern Health, VIC*)
- 9:30 **Fibrinolysis studies in disease.**  
Charithani Keragala (*Monash Health, VIC*)
- 9:55 **Global assays in liver disease.**  
Joanne Joseph (*St. Vincent's, NSW*)

---

1015 - 1100 *MORNING TEA and TRADE*

---

Session 2: Novel therapeutics and the coagulation laboratory

- 1100 **Laboratory measurement of plasma emicizumab, FVIII and FVIII inhibitor titres during emicizumab therapy**  
Geoff Kershaw (*Royal Prince Alfred Hospital / NSW Health Pathology, NSW*)
- 1120 **Clinical correlation with Emicizumab levels in paediatric and adult congenital haemophilia**  
Stephanie P'Ng (*Fiona Stanley Hospital / PathWest, WA*)
- 1135 **QLD experience with upfront Emicizumab use in acquired haemophilia**  
Jane Mason (*Royal Brisbane & Women's Hospital, QLD*)
- 1200 **Are routine coag tests affected by Andexanet?**  
Grace Gilmore (*Perth Blood Institute, WA*)

---

1220 - 1315 *LUNCH and TRADE*

---

Session 3: Diagnosis of VWD / Platelet disorders

- 1315 **How I diagnose and subtype von Willebrand disease.**  
Prof. Jorge di Paola (*University of Washington, St. Louis, USA*)
- 1345 **Building bridges between platelets and researchers: the case for collaborative biobanking and the National Platelet Research and Referral Centre**  
Phil Choi (*The Canberra Hospital, ACT*)
- 1410 **A review of the VWF EQA program.**  
Sandya Arunachalam (*RCPA Quality Assurance Program, NSW*)

---

1425 - 1500 *AFTERNOON TEA and TRADE*

---

- 1500 **APACE certification** (Maureen Jacobsen, *APACE Committee Chair*)

Session 4: Case Conundrums

- 15:15 **Investigation of bleeding in a 4-year-old.** Dianne Lovelock (*Sullivan Nicolaides Pathology, QLD*)
- A curious case of conjunctivitis.** Joanne Clifford (*Monash Health Pathology, VIC*)
- The case of the disappearing Emicizumab.** Marcus Lombard (*Fiona Stanley Hospital, WA*)
- Fetal MRI diagnoses maternal thrombocytopenia.** Dominic Pepperell (*Fiona Stanley Hospital, WA*)

---

1615 - 1715 *SUNDOWNER DRINKS and TRADE*

---
